Preliminary

Introduction:

These Estimates of Revenue and Expenditure illustrate both the Recurrent and Development expenditure projections for Central Government Ministries Departments and Agencies. The first section provides summary aggregate tables of revenue and expenditure, which is then followed by details at the Vote Level broken down by cost centre (Project and Program), as explained below:

Table V1: Summary Vote Estimates by Vote Function, Programme and Project

This table provides the recurrent and development summaries by Vote Function, Programme and Project for the specified Vote. This shows Vote Function totals and integrates recurrent and development summaries to give a comprehensive Vote overview. It also shows the summary for Votes legally allowed to retain and spend NTR.

Table V2: Summary of Vote Estimates by Item

Table V2 provides a summary of Vote estimates by item. It provides a Vote level snapshot of what the main expenditure drivers are such as staff training, workshops or travel expenses and is sub divided into 4 classes of output, which are associated with different categories of expenditure items:

The first category is ***Outputs Provided*** – These are services provided by the Vote, either internally (e.g. Ministry Support Services to the rest of the Ministry) or to an external third party (e.g. Primary health services to the public). These services are funded through the expenditures on Employee Costs and Goods and Services in the Chart of Accounts.

The second category is ***Outputs Funded*** – These are services funded by the Vote but delivered by another institution (e.g. transfers to Uganda National Examinations Board). These relate to expenditures on grants and transfers in the Chart of Accounts.

The third category is ***Capital Purchases*** - These relate to the purchase of capital assets in the Chart of Accounts. This categorisation enables a better handle on the level of fixed capital investment in the budget.

The fourth category is ***Budgeted Arrears***

Table V3: Detailed Estimates by Vote Function, Cost Centre, Output and Item

This table provides details for each programme, project and item under each Vote Function, within the defined class of output stated above. For each development project and recurrent programme, the line item budget is presented by key Vote Function Output. These outputs are defined in the Results Oriented Management (ROM) handbook as those, which are most important in the achievement of the strategic objective for the Vote. These inadvertently

contribute towards fulfilling a Vote's Mission Statement and the achievement of Sector Objectives. Examples could include *support to teachers in hard to reach areas* or *renewable energy promotion*.

Table V4: External Project Financing to Vote

This final table captures sources of external financing for each development project in the Vote.

Vote: These are institutions (Ministries, Departments, Agencies and Local Governments) which are the basis of the annual budget and appropriations made by Parliament, and the basis for accountability, e.g. Ministry of Education and Sports.

Vote Function: These are groups of related services and capital investments delivered by a Vote or delivered on behalf of that Vote by another institution e.g. secondary education services

Vote Function Key Output: These are strategically important services delivered by the Vote Function which contribute directly to the Vote's and indirectly to the sector's objectives, e.g. purchase of instructional material which contributes to increasing access to education and to the wider sector objective of increasing literacy and numeracy rates.

Programme: These represent the results or sets of activities implemented by the Vote which contribute to the achievement of the Vote Function objectives. These are recurrent in nature, e.g. inspection of primary schools.

Project: These represent the results or set of activities implemented by the Vote which contribute to the achievement of Vote Function objectives. They primarily involve capital purchases and may be financed by the Government of Uganda and/or Development Partners, e.g. Emergency construction of primary school classrooms.

Item: These are lowest operational level of the budget, and represent the resources necessary to carry out activities, e.g. staff salaries, travel inland, printing and stationery.

Chart of Accounts: This is the complete list of items against which budget allocations are made and appropriated through the Integrated Financial Management System. This forms the basis of the detailed budget estimates.

Approved Budget: This is the appropriated budget by the Parliament of the Republic of Uganda, which is normally undertaken in September of the proceeding financial year.

Release: Central Government transfer of funds to MDA's (including supplementary funds) from the consolidated fund.

Investment (Capital Purchases): These relate to purchases of capital assets in the chart of accounts.

Grants and Subsidies (Outputs Funded): These are services funded by the Vote but delivered by another institution. They relate to expenditures on grants and transfers in the chart of accounts.

Poverty Alleviation Fund (PAF): These are ring-fenced expenditures for front line services that are crucial for alleviating poverty.

GoU: This refers to the category of expenditure on domestic development.

External Financing (External Fin.): This refers to the category of expenditure that was previously referred to as donor in the budget documents. The change in the name is to ensure conformity with international nomenclature.

Appropriations in Aid: This refers to the category of expenditure that is a Non-tax and collected by institutions that spend it at source.
